

JUST CLEANINGS

HIGH SCHOOL EXAMS
WILL START ON JULY 10

Examination dates for Grade 9 and 12 students in Alberta high schools were announced last week by the department of education. Examinations for grade 9 students extend from July 10-14 and from June 15 to July 14 for pupils of grade 12.

ORIGINAL BURGLARS SMASH SAFE WITH PLANT TOOLS

DALLAS, Texas — Burglars put a new touch on the safe-cracking business in looting a motor supply company's strong box. They placed the safe on the firm new 48-ton hydraulic press and smashed it open. Their loot was \$2,000 and two pistols.

3000 DUCKS PERISH AT NIAGARA

NIAGARA FALLS, Ont.—It was bad weather for ducks here last Friday and Saturday. A flock of approximately 1,000 were swept to death over the Horseshoe Falls in a heavy fog on Friday, and on Saturday night about 2,000 of the migrating birds suffered the same fate.

RATION BOOK 4 NOW IN USE

Ration Book 4 came into use on April 13, when sugar coupons 30 and 31, and preserves coupons 17 and 18 became valid. On April 20 all coupons valid—except for the F coupons for canned sugar in Ration Book 3—are included in Ration Book 4. It is, tea, coffee coupons 7-30, T-31 and butter coupons 38 are good on that date. Tea, coffee coupons follow E coupons 1-6 in Ration Book 3 for these purchases.

First five F coupons for canned sugar, in Ration Book 3, will be valid on May 25 and the second five F coupons on July 6.

MOISTURE RESERVES AND CROP YIELDS

The yield of spring wheat in soil where moisture extends down to one foot averages 6.5 bushels; when the moisture goes down two feet the average is 11.5 bushels; and down to three feet the yield is around 18.2 bushels.

The above results have been obtained in the course of extensive tests by agronomists of the "United States Bureau of Plant Industry. The conclusion was reached that when moisture is down to one foot or less at seedling time, the chance of enough rainfall in the growing season to make a good crop is less than one in six.

MASS RECRUITING

Bing Crosby was singing at a recruiting drive in Los Angeles. When he sang "Anchors Aweigh" 100 kids with shining eyes jumped up and joined the navy. Bing then sang "The Caissons Go Rolling Along" and 20 boys signed up with the army. Then he sang "There's a Gold Mine in the Sky." Fifty Scots rushed to join the six corps.

Alfred Braisher was in town Tuesday visiting with his parents. Mr. and Mrs. W.A. Braisher.

VOLUME 23; NUMBER 12

CARBON, ALBERTA, THURSDAY, APRIL 20, 1941

\$2.00 A YEAR; 5¢ A COPY

CARBON UNIT HAS QUOTA OF \$52,000 IN THE SIXTH LOAN

Plan Now to Buy All The Bonds Possible

According to word received by S. F. Torrance, local Unit Organizer for the Sixth Victory Loan, Carbon and district has been asked to raise the sum of \$52,000 when the drive for the Sixth Victory Loan opens next Monday, April 24th.

Mr. Leveque, organizer for the National War Finance Committee was in Carbon Tuesday and met with the local committee, and explained various phases of the campaign, which opens Monday.

Carbon Unit has always raised its previous quotas, and it is confidently expected that the quota of \$52,000 in the Sixth Victory Loan will also be reached. Farmers, in particular, in the Carbon district have benefited by the higher market price for wheat, and with the participation certificate payments expected immediately there should be means for any farmer not buying at least one bond.

The money for the quota at Carbon now lies in the local bank on deposit to its clients, and the owners of these deposits may as well receive 3 1/2 percent interest on their money. The security is the best there is, and by buying bonds with their money they will have helped to hasten victory and bring our boys home from overseas just much sooner.

SAFELY CONTROL, ESSENTIAL

Unless control is practised generally, crop losses from sawfly damage in Alberta will be heavy in 1941, warns J.L. Englehart, Supervisor of Pest Control. Sawflies will be present this year wherever they were seen in 1940. In districts where sawfly damage was least last year, losses during 1941 will be greatly increased unless control measures are undertaken.

Two years ago, this pest incited just over 10 per cent of the Province's entire wheat crop. On some farms the sawfly has harvested all of it. The sawfly population has been increasing annually and is likely to continue to do so with corresponding increase in crop damage. It is time that this pest was taken seriously. Wheat is at present worth more than a dollar a bushel, but the price of wheat will mean little to Alberta farmers if, as a result of the sawfly damage, it is necessary to cease production of this crop.

Present methods of sawfly control are satisfactory and fairly simple. Until this time at the development of a resistant wheat is perfected, farmers are advised to make full use of these methods.

BUY VICTORY BONDS

RATES OF CROP PARTICIPATION CERTIFICATES ANNOUNCED

Canadian wheat farmers are to receive close to \$50,000,000 for their participation certificates for wheat harvested in 1940. 1941 and 1942. It was announced by Trade Minister J. A. MacKinnon. The minister said about 200,000 farmers will share in the payments.

He added the first cheques to be mailed will be to holders of certificates on wheat sold to the Canadian Wheat Board in 1940.

The actual value placed on the certificates for each of the three years, based on No. 1 Northern wheat are as follows: 1940, 6 1/2 cents per bushel; 1941, 14 7/8 cents per bushel, and for 1942, 11 1/4 cents per bushel.

The actual per bushel payment for each grade will vary to allow for differential between the initial spreads under No. 1 Northern, which are estimated at the start of each crop year, and the final spread for the sale.

MINUTES OF MEETING OF M.D. KNEEHILL

The following minutes of the meeting of the Municipal District of Kneehill No. 278, held at Three Hills on March 20, is copied from last week's issue of The Chronicle. Another meeting was held on April 11, and The Chronicle is endeavoring to have a copy of this and future meetings sent to us for publication.

March 20.—The foregoing motions were carried.

Office kept open for business from 9 a.m. to 6 p.m. on each day and the number of staff will be given 2 weeks vacation each year with pay.

That 3 days of absence be granted the entire staff to attend a refresher course each summer at the University of Alberta and that each member of the staff be paid \$25 expenses per annum for the said course.

That Robertson & Co. be appointed auditors, and to complete audit of four Secretary Treasurers in the M.D., as soon as possible.

That members of the staff be instructed not to engage in insurance business except that of the Hall Insurance Board during business hours.

That the following be employed at hourly rates: N.T. Giesbrecht, J. Esmat, A. H. Wulff, Paul Elvin, Walter Rents, Bert Stalls, Harvey Markle, Victor Greal and Ernest Wilson as cook-room staff at \$125 per month.

J.A. Gihlhauser was appointed to supervise repair of machinery.

That Mr. Hugh Purdy supervise the repairing of road building machinery.

That the RHD tractor be shipped to Calgary for repairs.

Representatives were present from the Bank of Montreal, Royal Bank of Canada and the Alberta Treasury Branches and it was decided that the banking business be divided between the Royal Bank and the Treasury Branch at Three Hills.

Poundkeepers were appointed for all pounds throughout the Municipal District.

That tenders be advertised for sale of the Municipal Office at Arcadia.

That the Trocha office be closed as soon as possible.

At the Tuesday session of the new Council the following motions carried: That Council hold regular meetings at Three Hills on the second Monday of each month at 10 a.m.

LONG YEARS AGO

April 20, 1933

A 14-inch fall of snow on Monday has rendered the hearts of the farmers and provides ample moisture to germinate the seed grain. To the south of Carbon town was reported two feet deep in places.

Grade VI School Report—Harold Wise, Albert Gieck, Jack Heath, Harvey Barker, Gladys Bransley, Francis Poole, Esther Gihlhauser, Marjorie Leitch.

A new back stop at the Grand Forks sports ground is to be erected and much new sports equipment will be purchased this spring.

Mr. and Mrs. C.H. Nash are holidaying at the Pacific Coast.

Miss Mabel Ramsay, who is attending normal school in Calgary, is home for the Easter holidays.

R. A. F. MITCHELL B-25 DAY BOMBERS

One of the first pictures to be taken of the R.A.F.'s new Mitchell B-25 day bombers in operation. These planes have been in action with great success in the recent big raids over enemy territory.

WEAT SEEDING WILL SOON BE GENERAL IN DISTRICT

Seeding of wheat in the Carbon district has been going ahead for the past week and is becoming fairly general, and in some cases farmers have completed putting in most of their wheat seed.

The rain last Thursday has helped the moisture situation and grass is now beginning to show green on the hills and pastures. Crops plants have blossomed out in abundance the past week and will soon be gone for another year.

ALBERTA HIGHWAYS PROGRAM

Work crews are to commence immediately on final hand surfacing of sections of the main Calgary-Edmonton highway, according to information received by the Alberta Motor Association.

The first object will be the "armor plating" or laying of the final course on the section between Calgary and Cochrane.

Certain projects in the southern part of the province also are on the program but it is expected that final sections will be deferred until a survey is made by the minister of public works, Hon. W.A. Palliser, and departmental heads. They will start next week on a tour of various districts to observe conditions at first hand.

Meantime, plans are being made for the development of the district highway program for which \$500,000 was voted at the recent session of the legislature. Delegations from different areas already are making requests for extensions to the government in putting forward their needs.

CANADIANS WELL FED

While other nations have eaten less under the stress of war, Canadians have been fortunate and Canadians have eaten more. This is true of milk and milk products, grain products, meat and so forth. Only in comparatively few items food has total consumption in Canada been under the pre-war level.

Canadians should be thankful that the farmers of this Dominion have the ability, endurance and energy to increase food production to such a high capacity. Canadians have been the world's best fed people during the war years, thanks to the effort of Canadian farmers.

THE WORLD OF WEAT REVIEWED WEEKLY BY MAJOR H.G.L. STRANGE

WEEDS—THE CROP ROBBERS

Next to lack of rainfall, weeds undoubtedly are the main reason for low yields to the acre. Every weed plant that does not grow means one more money-making plant for the farmer, for a weed plant utilizes just as much moisture from the soil as does a useful plant. Large numbers of weeds are often seeded each year with the seed the farmer sows. To clean seed well, therefore, so that all weed seeds are eliminated, is the very first step, and the easiest and most profitable step, that a farmer can take. This is easily said—not so easily done. It requires a good farming mind and extreme care in the use of the proper screens and of the management of the farming mill.

The next important source of weed infection is in the scattering on the fields of seeds from weed plants that are allowed to ripen. If a field is badly infested the sowing of a crop, such as an early barley that can be cut before the weed plants set to seed, is an splendid method. The earliest crop is barley, and the earliest barleys are the feed barleys—Colosse, Warrior and Olli.

MRS. DEAN TWISS DIES IN CALGARY HOSPITAL

Mrs. Lillian Twiss, 38, of Beiseker, died Wednesday, April 12 in a Calgary hospital.

Born in Boland, Man. she had lived for five years at Beiseker, and previous to that time had been a resident of Carbon, when her husband worked at Garrett Motors.

She is survived by her husband at Beiseker, her mother, Mrs. Wm. Campbell, Vancouver; two sisters, Mrs. Leonard Shaw, Calgary, and Mrs. G. Gardner, Vancouver; three brothers, Chief Petty Officer Harry Woods, whose home is at Carbon, Eider Woods, Vancouver and Oeder Clark Woods, R.C.N.V.R.

Funeral services were held from Gooder Bros. Funeral home in Calgary last Saturday at 2 p.m. Rev. G. R. Upton officiating. Interment was made in Queen's Park cemetery.

Born, to Mr. and Mrs. Henry Ward, in the Holy Cross Hospital, Calgary, on Wednesday, April 12, a daughter.

In Finland the sugar ration, to non-smokers only, is four and one-half ounces a week. Possession of a tobacco card cuts the sugar ration in half.

The Future Of Germany

ALTHOUGH IT IS FREQUENTLY STATED by officials of the Allied command that an early end to the war should not be expected, there is no doubt that widespread speculation as to the fate of Germany when she is finally overcome. Naturally there is a general desire to see a nation which has so brutally overrun the greater part of Europe made to suffer for her crimes, and numerous proposals have been brought forward in this connection. As in many other matters related to the war, it cannot be expected that the Allied leaders will make any definite commitment in advance, but it is believed that a plan does exist. Following the conference at Tehran, when Prime Minister Churchill, Marshal Stalin and President Roosevelt met, it was announced that problems of the future had been discussed, and without doubt the fate of Germany figured in these conversations.

Ensure Peace And Security

While there are many who are of the opinion that Germany should be drastically stripped of territory and resources, it is thought that action in this regard may not go to the lengths sometimes advocated. There is no question but that German war industries must be entirely destroyed, and this measure must be taken to ensure that Germany will be unable to manufacture war materials in the future. The opinion has also been expressed in the British press, that Allied supervision must be exercised over many of those industries which include the transportation and power services. There is also the probability that it is clear that Germany will have to relinquish all the land she has acquired by aggression and that her boundaries will have to be adjusted in the interests of European peace and security. There is also the probability that certain states now within the Reich, such as Austria, may choose to withdraw from the war in the future.

Re-education Is Important

Official circles have not favoured plans for partitioning Germany into a number of small units, for history has shown that such action only serves to strengthen national spirit and to provide fertile ground for territorial settlements. It is also felt that to bring about her complete financial and industrial collapse would have a serious effect upon the whole economic structure of Europe. It is apparent, however, that she will be stripped of all means of building up another war machine or in any way preying on surrounding nations. Present plans for a strong European Federation also make it appear unlikely that Germany will ever again menace the security of that continent. One of the most important problems which will arise in connection with the settlement of the war will be the re-education of the German people. The destruction of the Nazi ideology, and the substitution of normal, sane thinking will be an undertaking of gigantic proportions and of the utmost importance to the future of the world.

"I said good-bye to Custipation!"

"I've given up pills and harsh cathartics. I found my constipation was due to lack of 'bulk' in my diet—and I discovered that KELLOGG'S ALL-BRAN is a perfectly grand way to get at the cause, and help correct it!"

"If this is your trouble, stop 'doin' up' with harsh purgatives—with the lack of lasting relief! Try eating a serving of ALL-BRAN daily, with milk, or spread over cold cereals. Or, eat several ALL-BRAN muffins daily! Drink plenty of water."

Get KELLOGG'S ALL-BRAN at your grocer's today—in either of two convenient sizes. Made by Kellogg's in London, Canada.

Jet-Propelled Ship

Invented By Englishman And Is Now Actually In Existence

Close on the disclosure that a jet-propelled aircraft had been built came word that a jet-propelled ship is actually in existence, capable of making fair speed through water without the aid of engines, propeller, rudder or funnel. It is the invention of P. H. Wild, an Englishman, whose brother, R. O. W. Wild, has renewed the patent on the invention in Britain. "My brother has carried out experiments with a ten-foot boat," said Mr. Wild. "It is propelled by jets of highly compressed products of combustion. He pretends to describe his method as 'jet-propulsion'." Jet propulsion for ships has long been a subject of experiment and the Admiralty were responsible for some which were carried out nearly 50 years ago.

YOU WOMEN WHO SUFFER FROM HOT FLASHES

If you suffer from hot flashes, either periodic or persistent, you are probably suffering due to the "imbalance" of a woman's life. E. FRANKLIN'S Vegetable Compound, the "hot" remedy, is the only remedy made of minerals to relieve such conditions. FRANKLIN'S Compound is also a true stomach tonic. Write for a free booklet today.

Captured German Arms

Moscow Exhibit Includes One Of Germany's Closely Guarded Secrets

A Moscow exhibit of newly-captured German arms includes a self-propelled, electrically-cooled hand torpedo used as an anti-tank weapon. Tass News Agency said the torpedo, captured along with a parabolic reactive mortar mounted on an armored carrier, had been abandoned during the rapid retreat from the Leningrad sector.

Among other exhibits are a 100-mm. gun with range of about 11 miles, and a 150-mm. gun with a range of more than 12 miles.

GEMS OF THOUGHT

SIMPLE THINGS

I wonder if the tides of spring will always bring me back again. But I capture at the simple thing Of lilacs blossoming in June.

—Thomas S. Jones, Jr.

In eastern lands they talk in flowers and tell in a garden their loves and cares—Perseval.

What is true, simple and sincere is most congenial to man's nature.—Cicero.

When the heart speaks, however simple the words, its language is always acceptable to those who have hearts.—Mary Baker Eddy.

In character, in manners, in style, in all things, the supreme excellence is simplicity.—Longfellow.

Spring rides no horses down the hill, But come on foot, a goose-stepping still. And all the loveliest things there be Come simply so, it seems to me.

—Edna St. Vincent Millay

BRITAIN'S AIRFIELDS

The total area of Britain's airfields today is greater than the combined area of the counties of London and Middlesex. Flying from London to Liverpool, a distance of some 200 miles, one is never out of sight of an airfield.

Riders for the Pony Express were expected to cover 75 miles in one day.

Price Control And Rationing Information

Q—I understand that the coupon value for most preserves has been changed. How much sugar may I now get for a preserve coupon?

A—No change was made in the coupon value for sugar. The amount of sugar obtainable for a preserve coupon remains at half a pound.

Q—I am thinking of buying a retail business and believe there is some regulation that must be observed in that connection. What is it?

A—You must apply to the nearest office of the Wartime Prices and Trade Board for a permit entitling you to enter the business in question. Please give complete particulars when making application.

Q—Is it possible to buy two preserve commodities on one coupon?

A—Yes. Any combination of rationed preserves may be purchased, provided the total value of the preserves does not exceed the total coupon value.

Q—I buy very little butter and use very little margarine. My grocer always tears out the unused coupons and keeps them. Should I do this?

A—No. You are required under existing regulations to remove the unused coupons which are no longer valid and destroy them.

Q—My son celebrated his twelfth birthday yesterday. I want him to obtain his tea ration. Please advise as to how I can do this.

A—Sorry. You will not be able to get tea rations for your son until the first of October, as the new ration books are issued on that date. The plan, as he did not become 12 years old before September 1st, he is not eligible for these coupons until the new book is issued.

Q—Is there no rule against storekeepers keeping goods under their counters for their best customers?

A—There is no such rule. The merchant who thinks ahead will not, we believe, adopt this practice to the detriment of his business. He will endeavor to make an equitable distribution of goods as possible to all his customers.

Please send your questions or your request for the pamphlet "Consumer News" to the Wartime Price Book (the book in which you keep track of your rationing) to the Wartime Price Book, c/o the Wartime Price Book, c/o the Wartime Price Book, c/o the Wartime Price Book.

Has Greatly Increased

Number Of Canadians Filing Income Tax Returns Is Around 2,000,000

Before the war, income tax returns were required from about 300,000 Canadians; now the number is around 2,000,000. The work of income tax staffs is therefore nearly seven times as great, and one result is that assessments are away in arrears. Those taxpayers are fortunate who know where or not their returns for 1942 were correct, though filed in 1942 or not, and thousands are said to be waiting to hear about 1943. It has been explained that even if the department were able to obtain complete returns, it would not be able to level out the work to cover the entire year; but now another deluge of returns is at hand and the pressure one is not heard of—Toronto Telegram.

Glass eyes were used by the Romans and Egyptians.

Written specially
for the weekly newspapers of Canada
By JIM GREENBLAT

In this Sixth Victory Loan Canadianians are asked to subscribe to the war effort. "I don't care if our boys and girls back just as soon as possible from such hell as Hong Kong," says a young man, "I don't care if we're white collar guys or the fellows coming in from the shores with niggers. I don't care if I'm poor or as much as we dislike such things we're in it to the finish. The thing is to get it over as fast as possible. I don't want any smarter or stupider than the average fellow. I don't want any more than the average two definite things: 1, investing in victory; 2, investing in my own country. I don't want any other people. The government charged with running this war for us, is not asking anything from me but to get me and them at a fair rate of interest. I was interested in a little booklet, 'The Sixth Victory Loan' by the Bureau of Statistics showing living standards in 1941. I just quote them here: 'In 1941, 37 per cent had no car, 36.6 per cent had farm dwellings were in need of repair; 56 per cent were heated by coal, 20 per cent by oil, 20 per cent by furnace; 20 per cent have electric lighting; 74 had bathing facilities; 66 per cent had a telephone; 43 per cent had radios; 43.7 per cent had automobiles and 29.2 per cent had

Obviously to make the standard of living higher, and the necessity for this is seen after one digests the above dry statistics, the farmer has got to lay up some cash, or something just as secure as cash, to get himself or his children the things he has been denied for all these years. Besides that it takes cash for replenishment of

Times have been good those last few years, due to the war, or anything else you like, that isn't a point we want to argue about. Do you know that agricultural income in Canada reached a new all-time peak in 1943, being estimated by reliable officials to be about 10 per cent higher than as much as that of 1939, estimated at \$722,000,000? This gives the farmer his chance, for the first time since about 1929, to institute for himself a savings program as his first line of defence against the uncertainties of the future. For food, knowledge and the future, the industry can run into uncertainties just about as quick as anything we know of.

Building up sound farm enterprises doesn't come about by accident. The big successful industries you hear about have been able to expand by definite planning and in this, the fate of setting up reserves is the material thing as sure as the sun sets in the west. You can do anything if you have cash reserves, and what better way of building up cash reserves than by investing in the Sixth Victory Loan. If a person gets the word "investing" firmly in his mind, there just can't be any doubt about what he's going to do. Building for the future on the farm can run coincident with foresight, planning and hard work by building up a cash reserve means saving. There is no better, surer way of saving than through Canada's Victory

Saving is the antithesis of speculation, and there was a time out West—where I have lived all my life—where quite a number of farmers went kerflooey because of speculation instead of saving. In this connection outstanding farm leaders and agriculturists have warned the farmers against speculation—speculation in land purchases which might lead to land booms—speculation in auction sales unnecessarily—speculation in securities of doubtful value and so on.

I am reminded that recently at Saskatoon, Hon. J.G. Taggart, Saskatchewan's minister of agriculture, and a former superintendent of one of Canada's most important experimental stations, warned against land booms and inflation of land value. said that 75 per cent of the ills of agriculture had been this very source—and if this disaster could be prevented in the post-war period, something worthwhile would have been accomplished.

Well, as I am, or anyone else, to preach to a farmer on things of this matter? Well, this is just a little heart to heart talk with farmers about the pros and cons of the Victory Loan. The National War Finance Committee take this stand—and it appears the most logical—(a) Victory Bonds, despite any temporary force, are the safest investment with which to build for the future with a reserve for the improvement of the farm, for the betterment of the farm life, for the whole future of farming in Canada.

build up reserves now—by saving in the securest manner possible—farm life can be made more attractive for the hundreds of thousands of lads and lassies who will be shedding the khaki and blue some day and taking up the most independent life in the world, that of farming.

Everyone knows, or should know,

that Canada's Victory Loan Bonds are marketable; they can be borrowed against at a very low interest rate from any chartered bank. Better still, they accumulate if kept until needed.

Buy Your Needs in Carbon!

A minister preached a sermon on the duty of wives.

"There is, alas, a woman in this congregation who is often guilty of disobedience to her husband. To make an example of her, I will dine my-

"Put Victory First". The Sixth War Loan opens April 24th.

MOST OF US DON'T KNOW

Hardly anyone—not even the publisher—knows how important a newspaper is to a community.

The smaller the town or village, the more important the newspaper is in its economic life. Its news, editorials and feature stories focus the interest of surrounding territory on the place in which the paper is published.

This force and the force of advertisements by local merchants build an ever-widening trade area. This means more business, more money for schools, homes and churches—a bigger and better town.

A town with a newspaper is a town with a future. The better the paper, the brighter the future.

It deserves the support of every business man in that town.

We are trying to make this paper worthy of our town. Your help and suggestions are appreciated.

VICTORY LOAN

Dated and bearing interest from 1st May 1944, and offered in two maturities, the choice of which is optional with the purchaser, as follows:

16 years and 1 month	3 years and 10 months
2% BONDS DUE 1st JUNE 1960	13% BONDS DUE 1st MARCH 1948
Callable in or after 1957	Non-callable to maturity
Interest payable 1st June and December	Interest payable 1st March and September
Denominations,	Denominations,
\$50, \$100, \$500, \$1,000, \$5,000, \$10,000,	\$1,000, \$5,000, \$10,000, \$25,000,
\$25,000, \$100,000.	\$100,000.
ISSUE PRICE, 100%	ISSUE PRICE, 100%

The proceeds of this loan will be used by the Government to finance expenditures for war purposes.

The lists will open on 24th April 1944, and will close on or about 13th May 1944.

APPLICATIONS FOR THESE BONDS MAY BE MADE THROUGH ANY VICTORY LOAN SALESMAN, ANY BRANCH IN CANADA OF ANY CHARTERED BANK OR ANY AUTHORIZED SAVINGS BANK, TRUST OR LOAN COMPANY, FROM WHOM COPIES OF THE OFFICIAL PROSPECTUS AND APPLICATION FORM MAY BE OBTAINED.

DEPARTMENT OF FINANCE

Oct. 11, 1944

"your if is the only peacemaker"

IF we are going to back the mounting invasions.
 IF we are ready to do our share in shortening the war...
 IF we are willing to pledge dollars against lives and against peace...
 IF we set store by this Canadian way of life.
 IF we want Victory... we'll buy VICTORY BONDS. Not just a single Bond. Not just as many as we feel we should buy. We'll buy more than we expected... if we want Victory.

IF YOU DO YOUR SHARE—IT WILL CERTAINLY SPEED THE VICTORY!

 BREWING INDUSTRY OF ALBERTA

U. S. OAT SHORTAGE

The serious shortage of oats threatens in the United States at the end of the present crop season. The War Foods Administration says American oat stocks may be reduced to the lowest levels since the drought years of 1934-35 and 1936-37.

Oats form a considerable part of the food diet of hogs, cattle and other farm animals. And with livestock numbers now at record levels, there doesn't appear to be enough corn to keep all the animals fed.

This situation, according to W.F.A. officials, has encouraged farmers to hold oats back on the farm. Therefore, there has been heavy imports of oats from Canada to augment domestic supplies. Some companies using oats in the manufacture of human foods, have had difficulties at times in obtaining supplies.

WHERE WEALTH LIES

The predominant source of wealth in Alberta is, of course, the soil. This province lives on its topsoil, which runs from six to nine inches in thickness.

The time will come when the oil resources will be exhausted and the timber in the foothills and in the north will be chopped down. Eventually, even our enormous resources of coal will be used up.

It has been said that the "land endures forever". Yes, it can endure forever if it is properly looked after. It will not endure if the topsoil is thinned out by continual cultivation and along and carry it away in swirling clouds of dust. Conservation is needed to maintain the main asset of the province.

Snicklefritz-----

"Let me see now," said the minister at the christening dipping his pen in to the ink to record the event. Isn't this the 17th?"

"I should say not," exclaimed the child's mother. "It's only the ninth."

Bill: Who won the race to the fence, you or the ball?"

Pete: "It was a toss-up."

Telegram to Friend: "Washout on lines can't come."

Reply: "Borrow a shirt and come anyway."

"I tell you, gentlemen," said the man on the soap box, "if you want a thing done well, you must do it yourself."

"What about getting your hair cut," shouted an interpreter.

"I'm giving you the bald facts," went on the orator unperturbed.

Successful Father: "Supposing that I should be taken away suddenly, what would become of you?"

Son: "Oh, I would just be here. The question is, what would become of you?"

"How did Brown's wedding go off?"

"Fine, until the parson asked the bride if she obey her husband."

"What happened then?"

"She replied: 'Do you think I'm silly?' and the groom in a sort of a daze replied: 'I do.'"

A racketeer on trial for murder bribed an Irishman with \$100 to hold out for a verdict of manslaughter. After being out for a long time, the jury returned with the desired verdict.

"I'm awfully grateful to you," the racketeer told the Irishman. "Did you have much trouble?"

"Yes," replied the son of Erin. "I

had a devil of a time. All the rest wanted to acquit you."

Alex: "My cigarette lighter is like a second hand clothing store."

Gus: "Why?"

Alex: "Three failures and then a fire."

AMERICANA

Three salesmen were eating dinner in a Washington hotel. The bill was \$30 and all reached for the check. The first fellow said his firm was in the 50 per cent bracket, doing war work, and that the bill actually would cost him only \$15. The second man said, "Let me pay it. We're in the 80 per cent bracket and it will cost me only \$6." The third one said, "I'll pay the check. My firm is working on a cost plus basis and we'll make \$3 on the meal."—Chicago Tribune.

MRS. MERTON SAYS:

TOTAL WAR IS A LOT BETTER THAN TOTAL SLAVERY—

Buy Victory Bonds

HE HAD THE IDEA

"Willie," said his mother, "something tells me that you didn't go to church today. What was the text of the sermon?"

"The text was—let me see—something about 'Wait a while and you will get a blanket.'"

"Willie! There's nothing like that in the Bible. I'm going to call the minister and ask him."

She called the minister, who informed her that the text was, "Be patient and the Comforter will come."

We do expert printing at reasonable prices, you have nothing to worry about when you place a printing order with us—the work will be turned out promptly, correctly, and will be of the sort that insures confidence creates interest, and impresses with its good taste and neatness.

When you send out a poorly printed circular, you make a very bad impression upon its recipient.

When you send out a well printed circular, you inspire confidence and respect.

We can't all be in the front line, but we can
 Serve By Saving and Buying
 War Savings Certificates

Give this Man a Warm Welcome

You may not regard the Victory Loan salesman as a salesman who he calls on you. He is a man from your community whom you likely know well... perhaps a neighbor. He may never have done any selling before.

He has taken on this work because he feels that it is an important war job that must be done.

As a matter of fact he is not trying to sell you anything. He will ask you to save money.

Farmers are doing an important war job, too... producing food. Most farmers have increased their incomes. They have money to save.

You plan to use this money, and the things you plan to use it for are necessary things.

The Victory Loan salesman will ask you to let your country have the use of your savings now by putting your money into Victory Bonds.

Our big job now is to win the war, and to win it as soon as we can. That's why every Canadian is asked to buy Victory Bonds. It's why each of us is asked to buy all we can. You can buy them with cash, which you have saved, and you can buy more bonds and pay for them as you earn money, over a period of six months.

New Method Is Developed To Beat U-Boats

LONDON.—When Captain F. J. Walker, D.S.O., brought his second escort group of sloops into port after killing six submarines, it was a great day for one navy and also proof of the merit in newly-developed tactics, which beat the dangerous pack-hunting technique of the Nazis.

The answer—anti-submarine packs of sloops to hunt packs of submarines.

But not so very long ago the ships were not there to constitute such special escort groups as that commanded by Capt. Walker, who took his ships out on a 20-day patrol and came back with five of his six ships and a bag of six U-boats.

On many occasions, it was a case of providing convoys with just as many—or few—escort ships available at the place of origin. Sometimes it was a case of few and then it developed that guarding ships must remain ever close to their charges.

Surface U-boats could sometimes lure corvettes away and then dash in for an attack on the merchant vessels.

Gradually more destroyers and sloops and corvettes and the arrival of the frigates, some of them made in Canada, gave the navy the scope it wanted. The "killer" groups were formed and went after the submarine "packs".

Capt. Walker's great sortie was one of the results of this policy. Because of the number of ships available he was in a position to detail sloops to hunt one U-boat for as long as nine hours.

DIVERTING RIVER

Change In Yellow River's Course

WASHINGTON.—The Yellow river, which through the centuries has changed its course dozens of times, once again being diverted—this time to serve Japanese military purposes.

A Japanese Domei agency broadcast heard by United States government monitors appears to confirm earlier Japanese reports they deliberately are shooting "China's Sorrow" into yet another bed.

If true, the change may represent a shortening of Japanese military defence lines in North China by 500 miles, making the difficult-to-cross Huang Ho (Yellow river) run closer to the forbidding Shan escarpment.

The Domei report, dated April 1 from Peiping, said work is 70 per cent finished on diverting the Yellow river from its present course into the Wei river which would make it flow into the sea near Tientsin.

WORK TOGETHER

Practical Example Of Consultation Machinery Of Allies

LONDON.—Prime Minister Churchill told the House of Commons that Soviet Foreign Commissar Molotov's statement of Russia's purpose in carrying the war onto Rumanian soil "forms a particularly satisfactory example of the operation of consultation machinery between the Allies."

"The Soviet government was good enough to send the text beforehand," Mr. Churchill said. "We expressed our admiration for it . . . it certainly is likely to be a great help to the common war effort."

The prime minister said the machinery for such consultations was set up at the foreign secretary's conference in Moscow.

ADMIT ATTACK

But Nazis Make Light Of Damage To Warship Tirpitz

NEW YORK.—The Nazi agency D.N.B. acknowledged the German battleship Tirpitz had been attacked recently by aircraft at a northern Norwegian base, but claimed the attack was dispersed by our defence and did not attain full effect.

The German broadcast followed a British admiralty announcement that several bombs had hit the warship.

"The enemy suffered considerable losses in destroyers" during a convoy operation incidental to the attack, said D.N.B.

RUMANIANS DESERTING

NEW YORK.—Rumanian soldiers are deserting "by the thousands" and skirmishes are occurring in many regions where these deserters and German troops are in contact, the radio said, quoting an Istanbul dispatch.

WORE UNIFORMS

Two British Naval Officers Made Remarkable Escape From Germany

LONDON.—Two British naval officers escaped from a German prisoner of war camp without betraying to the Germans their true identity. They were wearing their 22-day trek through enemy country their Royal Navy uniforms.

Johns, Dennis Kellner, 25, and Stewart Campbell, 22, when back in England said they simply "walked out" of the prison camp one evening.

They set out along the 30-mile route to Bremen, posing as merchant marine officers, and completed their trip to the city by morning.

They were unable to get food because even cups of ersatz coffee cost coupons.

But train tickets could be had, and soon the two were speeding to their next destination. From there they followed an underground route to the coast and freedom, slaying sailors several times by claiming to be Dutch naval officers.

Twenty-two days after leaving the camp the two were home.

Casualty List Of The War Is Now Revealed

LONDON.—Prime Minister Churchill announced in the House of Commons that Canadian casualties in the first four years of war totalled 19,607, composed of 8,209 killed, 2,745 missing, 3,583 wounded and 4,369 prisoners of war.

He said the British empire casualties during the first four years of the war totalled 667,109.

The total was made up of 158,741 killed, 78,204 missing, 159,219 wounded and 270,980 prisoners of war.

Mr. Churchill gave the figures in a written reply to a question.

Of the total killed in the empire armed forces, he said 120,008 were in United Kingdom units, including overseas personnel serving in such forces, notably men from Newfoundland and Southern Rhodesia.

Deaths in the forces from other parts of the empire were given as follows: Australia, 12,298; New Zealand, 5,622; South Africa, 3,107; India, 5,812; colonies, 1,635.

Civilian casualties in the United Kingdom for the same period totalled 109,101, made up of 49,730 killed and 59,371 wounded sufficiently to be detained in hospitals.

Casualties to merchant seamen on British ships totalled 30,314, including 26,317 known dead and presumed dead and 3,997 injured.

United Kingdom casualties totalled 387,896, made up of 120,958 killed, 29,469 missing, 93,622 wounded and 153,947 prisoners of war. These figures include overseas personnel serving in the United Kingdom forces—particularly from Newfoundland and Southern Rhodesia.

United Kingdom civilian casualties in the first four years of war totalled 109,101, made up of 49,730 killed and 59,371 injured and detained in hospitals. These figures exclude casualties at sea.

Australian war casualties were 14,338, made up of 12,298 killed, 11,487 missing, 29,360 wounded and 26,760 prisoners of war.

New Zealand casualties totalled 5,622, made up of 5,622 killed, 884 missing, 11,315 wounded and 7,896 prisoners of war.

Indian casualties were 109,800, made up of 5,812 killed, 17,810 missing, 13,230 wounded and 72,845 prisoners of war including 58,221 officers and other ranks missing but presumed prisoners of war. These Indian casualties include those to Hong Kong and Singapore Royal Artillery.

Casualties to merchant seamen on British ships during the same period were 30,314, made up of 26,317 known and presumed dead and 3,997 injured.

These figures include nationals of the Dominions, India and colonies, serving on British registered ships, but do not include any losses which may have been sustained in ships registered outside the United Kingdom.

WAR SUPPLIES

Surplus Stocks May Be Released For Civilian Use

OTTAWA.—It was reliably learned here that the War Assets Corporation—a crown company dealing with re-allocation and disposition of surplus war supplies—had asked the three armed services to dig through their stores in search of articles such as rubbers, shoes and underwear which are in short civilian supply.

The corporation was reported to have asked them especially for any spare rubbers to relieve heavy civilian demand.

One report said the services had been asked to provide 80,000 surplus pairs of suspenders for civilian release. Of this number, 28,000 pairs would be turned back to manufacturers to be reprocessed into about twice as many narrow tie and half elastic suspenders.

Defence Minister Ralston Greets V.C. Winner

The prize felt by all Canadians in Major Paul Triquet, hero of the battle of Ortona and winner of the Victoria Cross for his gallant action, is expressed by Defence Minister Ralston, while Mrs. Triquet looks happily on. Major Triquet returned to Canada recently and is expected to remain here some time on leave. He came by Ferry Command transport from Britain.

A German Shell Missed Him By Inches

Smashing through the perspex of the mid-upper turret, a shell from a German night fighter narrowly missed Pilot Officer Murray Stewart of St. Walburg, Saskatchewan. The heavy bomber, of the Leaside Squadron, had just finished dumping its load of bombs on Brunswick when it was enemy fighter. Shells smashed its port rudder and held the port tire. The Nazi aircraft did not escape scot free, however: Lieutenant Al. Torke of Powell River, B.C., tail-gunner, raked it from end to end. Squadron Leader W. W. Strachan of Trail, B.C., then skippered the Canadian bomber back to its base.

Subaltern Mary Churchill Wears Her C.W.A.C. Uniform

Looking pleased as punch, charming Subaltern Mary Churchill, daughter of Prime Minister Winston Churchill, is shown above wearing the Canadian Women's Army Corps uniform which was presented to her in Britain recently. At left, Miss Churchill, who is a Subaltern in Britain's Auxiliary Terrestrial Service, tries on the cap. On the right, she models the smart C.W.A.C. Summer outfit before a warm fireplace "Somewhere in England".

TO AWAIT REPORT

Before Draft Is Made Concerning Post-War Radio Policy

OTTAWA.—The federal government likely will not draft a post-war radio policy until the House of Commons committee on radio makes its report and recommendations to parliament. War Services Minister LaFleche indicated.

Gen. LaFleche told The Canadian Press the policy would depend on recommendations brought down by the committee and the present situation of radio broadcasting and more particularly the handling of the affairs of the publicly-owned Canadian Broadcasting Corporation.

It is not known when the committee will complete its hearings and report to parliament, but there are indications it will not be for some time.

Mr. King said the Swedish government has offered to make three additional ships available to carry the additional supplies. The present fleet numbers 10 ships under charter to the Swedish Red Cross.

The increased allotment, made in response to a request from the neutral relief commission in Greece, will boost the total monthly allocation to 24,000 tons of wheat, 4,700 tons of pulse, 1,000 tons of rice, 600 tons of canned milk, 300 tons of soup, 300 tons of vegetable stew mix and 300 tons of high-protein spaghetti plus 2,000 tons of rice and 2,000 tons of sugar for the year.

The additional wheat, up to 9,000 tons monthly will be provided initially as a gift from the Argentine government. The additional foodstuffs will be supplied by the United States government as lend-lease to the Greek government.

Shippers during January and February were 29,200 tons a month plus 2,000 tons of rice. The increase will be made up of an additional 9,000 tons of wheat and another 2,000 tons of pulse.

Food Allotments For Greece Are To Be Increased

OTTAWA.—Prime Minister Mackenzie King announced it has been decided to increase food allotments to Nazi-occupied Greece to 21,200 tons monthly, an increase of 11,000 tons—and to add 2,000 tons of sugar for this year.

Shippers during January and February were 29,200 tons a month plus 2,000 tons of rice. The increase will be made up of an additional 9,000 tons of wheat and another 2,000 tons of pulse.

Mr. King said the Swedish government has offered to make three additional ships available to carry the additional supplies. The present fleet numbers 10 ships under charter to the Swedish Red Cross.

The increased allotment, made in response to a request from the neutral relief commission in Greece, will boost the total monthly allocation to 24,000 tons of wheat, 4,700 tons of pulse, 1,000 tons of rice, 600 tons of canned milk, 300 tons of soup, 300 tons of vegetable stew mix and 300 tons of high-protein spaghetti plus 2,000 tons of rice and 2,000 tons of sugar for the year.

The increased allotment, made in response to a request from the neutral relief commission in Greece, will boost the total monthly allocation to 24,000 tons of wheat, 4,700 tons of pulse, 1,000 tons of rice, 600 tons of canned milk, 300 tons of soup, 300 tons of vegetable stew mix and 300 tons of high-protein spaghetti plus 2,000 tons of rice and 2,000 tons of sugar for the year.

The additional wheat, up to 9,000 tons monthly will be provided initially as a gift from the Argentine government. The additional foodstuffs will be supplied by the United States government as lend-lease to the Greek government.

Shippers during January and February were 29,200 tons a month plus 2,000 tons of rice. The increase will be made up of an additional 9,000 tons of wheat and another 2,000 tons of pulse.

Mr. King said the Swedish government has offered to make three additional ships available to carry the additional supplies. The present fleet numbers 10 ships under charter to the Swedish Red Cross.

The increased allotment, made in response to a request from the neutral relief commission in Greece, will boost the total monthly allocation to 24,000 tons of wheat, 4,700 tons of pulse, 1,000 tons of rice, 600 tons of canned milk, 300 tons of soup, 300 tons of vegetable stew mix and 300 tons of high-protein spaghetti plus 2,000 tons of rice and 2,000 tons of sugar for the year.

The additional wheat, up to 9,000 tons monthly will be provided initially as a gift from the Argentine government. The additional foodstuffs will be supplied by the United States government as lend-lease to the Greek government.

British People Have To Endure Very Severe Hardships In Their Determination To Win The War

THE resumption of hit-and-run Nazi air-raids over England in recent weeks serves to remind Canadians of the severe hardships the British people have to endure. In the "light little land," everyone is eager now more than ever to learn the grim consequences of air attacks. Every able-bodied man, between the ages of 18 and 30 who is not in the active armed forces, carries out some essential war duty up to 48 hours a month in addition to his daily work.

When his regular job is done for the day his war duties begin: parade in the Home Guard, patrol as an Air Raid Warden, duty in the Observer Corps, or standing by in the Fire Guard. These are not easy ways to spend an evening, but an interesting fact is that even when such active duties are not compulsory millions of men and women have volunteered for service. According to recent figures, the Home Guard alone has recruited nearly 2,000,000 members on a voluntary basis.

Proseurs and lectures are out to the minimum. There is no gasoline for motoring and theatres and movies close comparatively early in the evening so that audiences can be at their posts in case of air raids. Most sporting functions including horse racing have been severely restricted also, of course, speedway racing which was so popular before the war, has been abandoned altogether.

Before the war it was an annual treat for the whole family to go to the seaside for a holiday, but in Britain is more than 70 miles from the sea. The war changed this vacation habit: excursion trains were cancelled and beaches barricaded with barbed wire and fortified against invasion. Seaside towns cannot be entered now without a permit from military or police authorities.

In restaurants the elaborate pre-war menus have given way to the three-course "mushy" meals. The dollar is the highest price that can be charged for the food served at restaurants although the government has made in many restaurants for entertainment and music. In many communities restaurant meals are no more—people eat in community feeding centres.

The manufacture of luxury articles and expensive clothes is banned. For what can still be found, a purchase tax of 100 per cent. on the wholesale price of leather trunks, handbags, fur coats, cut glass and jewellery makes the price prohibitive, as it also does on a silk dress even if the necessary coupons can be spared. Lipstick powder, and face cream are treasured, for supplies of cosmetics and perfumes have been drastically reduced.

None of the above-mentioned are major hardships for a people at war but right now seaside holidays, rare roast beef and fish stockings are but pleasant memories to the British people.

Goering's Luftwaffe

Is Likely Being Held In Reserve Until Invasion Starts

What has happened to the Luftwaffe? We can be sure it has not been moved into submission, despite any reluctance its personnel may feel about tangling with the overwhelming forces the Allies now put into the German skies. What is more likely, given the tremendous losses it has suffered in earlier attacks on raiding forces, is that it is being held in reserve against an urgent day. Goering knows by now that he cannot stop the Allied bombers from going through. His air forces may inflict some casualties both before and after bombers reach the target area, but these have never been heavy enough to minimize appreciably the damage caused to the targets themselves, nor have they been heavy enough to tax seriously our capacity to replace losses immediately.

Some time ago British observers believed that Germany had shifted aircraft production emphasis from attacking fighters of defensive fighters, that is, from long-range fighters to short-range fighters. It might have been assumed, if this were true, that attacking bombers would meet more fighter opposition on daylight raids. Yet the reverse has been the case, though there is little evidence that German fighter strength has been concentrated on the Russian front.

The most reasonable assumption is that what remains of the Luftwaffe is concentrated within easy fighter range of the possible invasion area and is being held in reserve against the day when British and American forces ascend on the Continent—Montreal Star.

Dogs were raised in ancient Mexico

R.C.N. Divers Repair Corvette

Cutting through four feet of ice, a team of 10 Royal Canadian Navy divers worked in water with a temperature of 27 degrees to repair an important piece of gear on a corvette. In charge of the operation was Warrant Boatwain Lawrence "Lor" Chaney, R.C.N., of Vernon, B.C., and Victoria. The divers were commended for their work by Commander C. R. H. Taylor, flag officer Newfoundland force. Emerging from the icy water, a shivering diver, pictured here, ascends the ladder of the diving boat. Upper picture shows Petty Officer Carl D. Cooke, of Trenton, N.S., and Able Seaman Albert Michalski, Yorkton, Sask., pump previous air to the diver below. Often in extreme cold, air valves in the helmet will clog with ice. The diver must then rise to the surface immediately.

MOSQUITO BOMBERS

The de Havilland Mosquito, plywood fighter and reconnaissance bomber, which furniture-makers in Britain and Canada are helping to manufacture, is now operating with the R.A.F. against the Japanese in Burma.

Ammonia, first produced in Libya, gets its name from the Egyptian god, Ammon-Ra.

WORK OF BRITISH NAVY

By British action alone since January 1st, 1943, 19 enemy warships and a large number of B-boats have been sunk, also escort vessels, mine-sweepers and other auxiliaries, as well as 315 merchant ships, aggregating \$55,000 tons.

Damascus is believed to be the oldest city in the world still inhabited.

War Causes Big Increase In Air Traffic

War conditions have brought about a tremendous increase in air traffic carried by Trans-Canada Air Lines. The above photo-montage is reproduced from the annual report of T.C.A., which contains figures strikingly illustrating this. In 1943 the number of passengers carried by Canada's national air line increased by 34%, air express volume by 138% and air mail volume by 21%. As compared with the preceding year, T.C.A. carried 200,000,000 air mail letters in 1943, apart from the trans-Atlantic mail service which it operates for the Canadian Government to expedite the delivery of mail to and from the armed forces in the European theatre of war. Operating revenues were \$9,079,591, an increase of \$2,942,183 over 1942. T.C.A., exclusive of the trans-Atlantic operation, in 1943 provided service—air mail, passenger and express—over routes totalling 4,003 miles in a big T.C.A. plane one of the company's transcontinental liners in flight. Maintenance of military aircraft in the company's shops, the leasing of mail for Canada's armed forces overseas, and, below, one of the big four-motored Lancaster transport planes which carry this mail across the Atlantic.

Chemistry Has Played A Most Important Role In Canada In Assisting Our Armed Forces

MORE than 700,000 Canadian sailors, soldiers and airmen are fighting at this moment in different climates from the very coldest to the warmest, and the lowest to highest altitudes to which men penetrate in battle. These same men are employing every moment, materials born in the test tube or in the laboratory.

Often people think of chemistry in warfare as something to do with poisonous gases or smoke screens. Important as these two are, they are but a drop in the test tube compared to all that chemistry in Canada is contributing to fighting men on the side of the United Nations.

From the day a man enters the service of his king, chemistry plays a role. After induction, he is inoculated against diseases of all kinds. When he prevents himself at stores for issue clothes, the ones he receives have been made stronger or safer by chemical process. He lives in a barracks or is sheltered in tents that have been deep-frozen and safeguarded by chemicals.

But in the field, even more does the modern soldier depend on chemistry. He must be fully equipped with ammunition, which includes powder and TNT came to him from the labs. When he takes a few minutes' lull in the fighting to eat, he has emergency food ration with him into which chemistry has packed three "squares". If he's wounded in battle, the drugs or a blood transfusion are given to him, the discoveries of which were first made in a chemical laboratory.

On the other hand, if he becomes a "Captain of the Clouds," chemical science safeguards him. Every part of the planes he flies, from the tips of their noses to their giant tires, is the result of industrial chemistry. The flight instructor, training the oxygen he breathes in rarefied altitudes, the flying suit he wears, these are but a few more of the countless debts he owes to chemistry.

Yet again, if he becomes a member of the "King's Navy," always at hand is chemistry. The shells that his ship's guns belch when closing in on the attack, the "ish cans" in the ship's dumps to kill the Next U-boats, are there "Through the courtesy of Chemistry".

No matter with what arm he may fight or in what climate he may be stationed, the performance of his duties rests on his equipment, that means it relies on chemistry.

Early Egyptian Home

People Lived In Comfort In The 14th Century Before Christ

A model of an Egyptian nobleman's house has just been put on exhibition in the Royal Ontario Museum. It is entirely based on houses excavated at Tell el-Amarna, a short-lived city of the 14th century before Christ. Some of the detail has been supplied by wall paintings of the same period. The model was executed by Miss Sylvia Hahn. Except for the absence of window glass, which was unknown to the ancients, it closely resembles the modern "functional" house. Not only has it a modern appearance, with its flat plain exterior in a charming garden setting, but it is actually as carefully planned for comfort as are the best of modern houses. The kitchens and servants quarters are in outbuildings. The house itself possesses spacious living rooms and bedrooms for the family. The central living space was well removed from summer heat and winter cold. The north room was used by the nobleman, while on the west side was a sunny winter living room. On hot summer evenings the nobleman enjoyed the breeze on the flat roof.

Magic Disappears

Removal Of Ventriquist Officer Deprives Talking Shell Of Voice

Claudius, the talking shell, has lost his voice, and as a result Australian troops in a free portion of the Netherlands East Indies no longer are able to supplement their iron rations with fresh fruits and other food raised in the region.

When Australians at an outpost found an old shell, they set it up in an appropriate spot and an officer used his knowledge of ventriloquism to furnish it with vocal powers. The ventriloquist officer, however, by Claudius' oratorical abilities that they brought prophylactic gifts of food to the talented bit of bone structure.

But now Claudius is still for the ventriloquist officer has been transferred.

Explorer's Niece

Hilda Bartlett Dore of Newfoundland, a member of the Women's Royal Canadian Naval Service, serving at H.M.C.S. York, Toronto, Ont. She is a niece of Capt. Bob Bartlett, skipper who accompanied Peary on his dash for the North Pole in 1909-10. Her uncle Bob is now serving with the U.S. army transport service.

Extensive Plan

Spending \$5,000,000 Extending Runways At Edmonton Airport

Approximately \$5,000,000 is to be spent extending the runways and making other additions to the Edmonton Municipal Airport and the airports at Grand Prairie, Fort Nelson and Watson Lake. It was announced by Trades Minister MacKinnon.

The Minister said that Munitions Minister Howe had authorized him to state that approximately \$125,000 would be spent on the Edmonton airport. The work will begin almost immediately.

These undertakings are part of an extensive plan to strengthen and extend the runways all along the Northwest Staging route so they will be able to handle the heaviest planes that fly, officials said.

Teamed for Spring

by Alice Brooks

Be right in the swim this spring with these hand-drawn, gamut mates to spark up dresses and suits. The easy pattern still is in straw yarn or cotton.

Blow-dried pill box and matching bag to croquet yourself. Pattern 1755 contains directions for hat and purse. To obtain this pattern send twenty cents in coins (stamps cannot be accepted) to Household Art Department, 1111 McGowan Avenue E., Winnipeg, Man. Be sure to write plainly your Name, Address and Pattern Number. Because of the slowness of the mails delivery of our patterns may take a few days longer than usual.

TRADE UNIONS IN INDIA

Trade Unions in India increased their membership in 1940-41, according to recently published statistics, to 513,832.

ASHES AND BACK YARDS MUST BE CLEANED UP

NOTICE is given to all residents of Carbon that they are required to clean up their yards and have all ashes hauled away before Monday, May 1st, otherwise the work will be done and the cost charged against the property tax.

VILLAGE OF CARBON,
CHAS. SMITH, Sanitary Inspector

TOWN AND COUNTRY
PERSONALOGRAPHS

Mrs. Alex Reid and Mrs. Swanson arrived back from Calgary last Wednesday.

Mrs. Smith (nee Lena Reid) spent the week end visiting with Mrs. Frank Emery.

Mr. and Mrs. Dick Gimbel and son Dale spent Sunday in Drumheller.

The Carbon High School students will put on two plays in the Scout Hall on Friday, April 21st, at 8 p.m.

—FOR SALE—Buffet, drop leaf kitchen table and six chairs; rocking chair; full size bed, complete. Apply to Frank Emery, Carbon.

Mr. and Mrs. Wm. Poole have moved from the farm into the Brough house in town. Bill is now employed steadily at the C.H. Nash store.

The Municipal District of Kneehill had a machine shed moved to Carbon from Acme, and the building arrived in town last Saturday.

Air Force Casualty list appearing in the daily press last Wednesday included the name of F.O. George Sammy Malton, formerly of Carbon. F.O. Malton is now for official purposes presumed dead, being previously reported missing believed killed on active service.

Dedication of the Carbon United Church memorial electric organ will take place on Sunday, April 23rd, at 11 a.m. Rev. John Gordon, B.A., B.D., principal of Mount Royal College, will be guest preacher. Evening worship will also be held in the church at 7:30 o'clock.

Publication of Notice to Creditors for the estates of the late John Neher, and the late Emanuel Bertsch, appeared in the Saturday issue of the Calgary Herald. We draw the attention of our readers to these notices, since they may be of interest to Carbon people. All claims upon the above estates should be sent to J.J. Greenan before June 1st.

Mrs. Margaret Reid of Calgary was a business visitor in town Monday.

Mrs. Jas. Smith and Roy of Drumheller spent Tuesday in Carbon.

Born to Mr. and Mrs. Ronald Nebel of Carbon, in the Drumheller hospital on April 10th, a daughter.

The new electric organ for the Carbon United Church arrived Monday and is being installed in the church this week. See announcement of the special services elsewhere in this issue of The Chronicle.

MINUTES OF MUNICIPAL
DISTRICT KNEEHILL, MARCH 20
